

AMENDMENTS TO THE SPECIFICATION:

Please amend the paragraphs at page 13, lines 9-17 as follows:

The video data are decoded ~~encoded~~ by a video decoder 604 after the video data are ~~decrypted~~ ~~encrypted~~ by a decrypting ~~an encrypting~~ module 603. The decoded ~~encoded~~ video data are then projected on a screen 607 by a projecting device 606 through a video signal output device 605.

On the other hand, the audio data are decoded ~~encoded~~ by ~~a~~ an audio decoder 609 after the audio are ~~decrypted~~ ~~encrypted~~ by a decrypting ~~an encrypting~~ module 608. The decoded ~~encoded~~ audio data are then sent to a loudspeaker 612 by an audio processor 611 through an audio signal output device 610.
